Summary

Junior Software Engineering student with hands-on experience in autonomous robotics, full-stack web development, and machine learning. Proven ability to lead teams, solve complex problems, and deliver impactful software solutions. Seeking an internship where I can contribute my technical skills and enthusiasm for innovation.

Education

Bachelor of Science: Software Engineering <i>University of Puerto Rico Mayagüez - Puerto Rico</i>	Major GPA: 4.00/4.00 <i>CGPA: 3.92/4.00</i>	August 2023 - Present <i>Expected Graduation: December 2027</i>
- Member of the IEEE Computer Society University of Puerto Rico - Member of the National Society of Leadership and Success (NSLS) at University of Puerto Rico - Member of the Computing Alliance of Hispanic-Serving Institutions (CAHSI) UPRM Chapter - Member of the Cypher++ Competitive Programming team in the University of Puerto Rico. Related coursework: Data Structures, Algorithms Design and Analysis, Linear Algebra and Differential Equations, Introduction to Software Engineering, Advanced Programming, Programming Languages, Foundations of Computing, Software Design.		

Experience

Persistent Technology Inc., AI / ML Intern - Collaborated in the creation of an agentic system to perform Retrieval Augmented Generation duties using MS Autogen. - Led the development of an evaluation framework for the NLP RAG system using DeepEval, Azure OpenAI, Ollama, and vLLM.	Virginia, USA June 2025 – July 2025
AON Robotics, Co-Captain / Software Lead - Led a team of 20 people through the full development of two robots to a National Champions Award and an Excellence Award. - Designed a motion profiling algorithm to ensure smooth, swift movements during autonomous navigation of vehicular robots. - Incorporated a GPS location system into the robot drivetrain for a ~20% increase in successful navigations to objectives. - Added computer vision and LiDAR technology to enable robot to find objects and make path alterations, reducing error by ~90%. - Implemented a PID controller for precise autonomous navigation, arm movement, and other VEX competition-specific tasks.	Mayagüez, PR January 2024 - Present
FT Innovations LLC, Mobile App Developer - Collaborating in the development of mobile apps across diverse industries and enhancing the MiUni app with a tutoring feature. - Created an iOS and Android compatible mobile app to connect users to freelancers using Firestore, Gemini API and Flutter.	Mayagüez, PR August 2025 – Present
UPRM Asuntos Academicos, Full Stack Developer - Developed a web app for police reports and on-campus security, and another for students and professors to find course syllabi. - Maintained and updated 7 different websites from multiple offices around campus such as Enrollment and Graduate Studies.	Mayagüez, PR January 2025 – June 2025
Blue Drop Personal Project, Creator / Lead Developer - Implementing a service using Artificial Intelligence to organize student agendas automatically by task complexity and due date. - Programmed Selenium web driver to search student emails and Moodle educational tool to extract homework, tests and meetings.	Mayagüez, PR September 2024 - Present
ProtheX Innovations Undergraduate Research, Junior Programmer - Trained a linear regression machine learning model to analyze EMG signals from a human and identify hand expressions. - Enabled a prosthetic arm to function using a Raspberry Pi microcontroller and Google's LiteRT ML deployment software.	Mayagüez, PR September 2024 – May 2025

Awards and Recognitions

1 st place out of 4: VEX U PR National Championship (11 of 12 autonomous wins)	January 2026
2 nd place out of 6: VEX U PR National Championship (6 of 9 autonomous wins)	February 2025
1 st place out of 8: ICPC coding competition Caribbean Regionals	November 2024
2 nd place out of 100: Calculus competition at University of Puerto Rico – Mayagüez	March 2024

Technical and Soft Skills

- Robotics and Autonomous Systems - Autogen, DeepEval, Open WebUI - Frontend, Backend, Full Stack - Git, GitHub - Dart, Flutter	- C/C++, Python, Java - PHP, Laravel, MySQL, WordPress - HTML, CSS, JavaScript - Interpersonal communication and conflict resolution - Leadership experience, teamwork, public speaking
---	---
